

JERÓNIMO PENNINI

EPIDEMIOLOGIST, BIOTECHNOLOGIST AND MOLECULAR BIOLOGIST

(+54) 299 5703 281 - JeronimoPennini1@gmail.com

[linkedin.com/in/jeronimo-pennini](https://www.linkedin.com/in/jeronimo-pennini) - <https://orcid.org/0000-0003-4402-3645>

Epidemiologist, with a degree in Biotechnology and Molecular Biology, focusing on Data Analysis, Health Research, Evidence Synthesis, and Health Technology Assessment. Currently serving at the Directorate of Epidemiological Surveillance and Outbreak Control within the Ministry of Health, Province of Buenos Aires.

Academic background

Residency in Epidemiology (2023 – 2026) Ministry of Health, Province of Buenos Aires, Argentina

Biotechnology and Molecular Biology Degree (2015 – 2021) National University of La Plata (UNLP), Argentina

Professional experience

- **Collaborator in Immunization Program** (2025). Conducted an in-depth analysis of historical immunization coverage in Buenos Aires, correlating data with recent outbreaks of vaccine-preventable diseases
- **Health Technology Assessment report** (2025) Analyze the Housing Inclusion Device as an innovative Health Technology in Neuquén. Awarded special mention at International Congress
- **Internship at Health Technology Assessment Committee of Neuquén** (2025) Conducted comprehensive literature reviews, performed epidemiological analyses, and authored detailed reports
- **Researcher, Project: “Girls compelled into motherhood in Buenos Aires”** (2025) Led quantitative research, analyzed extensive databases, conducted data collection, and authored manuscripts
- **Researcher, Project: “Description of Hantavirus in Buenos Aires”** (2024) Led quantitative research, analyzed extensive databases, conducted data collection, and authored manuscripts
- **Advisor at the Directorate of Health Information** (2023) Ministry of Health, Province of Buenos Aires
- **Undergraduate student’s tutor** (2023) National University of La Plata – Department of Chemistry
- **Undergraduate training scholarship (awarded by CIC)** (2020-2021) Biochemical Research Institute of La Plata (INIBIOLP)
- **Teaching Assistant** (2020) National University of La Plata – Department of Chemistry
- **Undergrad research internship** | 2019-2020 | Biochemical Research Institute of La Plata (INIBIOLP)

Training and courses related to Methods and Public Health

- Annual Course on Health Technology Assessment (UNCo) Dec. 2025 - 160 hours
- Training Course in Statistics and Health Information Systems of the Province of Buenos Aires. 2025 - 40 hours
- Course on Health Technology Assessment (Department of Community Health, UNLa). Mar. 2025 - 32 hours
- Access to and Use of Scientific Health Information (PAHO). 2024 - 10 hours
- Intermediate R Program. Nov 2024 - 10 hours
- Introduction to Health Data Analysis with Power BI. 2025 - 12 hours
- Annual Python Programming Course (UNSAM). Jun. 2021 - 96 hours
- Introduction to Geographic Information Systems (GIS). 2025 - 12 hours
- Epidemiology, Basic Level. INE (National Institute of Epidemiology) - October 2024 - 300 hours

- Epidemiology, Intermediate Level. INE (National Institute of Epidemiology) - November 2025 - 450 hours
- Introduction to Research Methodology in Health Sciences (National Ministry of Health) 2025 - 10 hours
- SNVS2.0 Course (2020 Version). PAHO - September 2023 - 20 hours
- Legionella Prevention in Healthcare Institutions Course (INE JARA). Nov 2023 - 10 hours
- Basic Tools for Implementing Health Situation Rooms, 4th Edition. National Ministry of Health - Nov 2023 - 50 hours
- Statistics Course: Introduction to Estimation and Analysis of Relational Variables
- Training: A Comprehensive Approach - Right to a Future Without Chagas Disease (Ministry of Health, Buenos Aires). October 2023 - 5 hours
- Seminar on Vaccines (CONICET). 2024 - 5 hours
- Seminar on Health Literacy and End-of-Life Decision-Making (UNCo). 2025 - 2 hours
- Seminar on Introduction to Epidemiology and Clinical Epidemiology (Ministry of Health, Argentina)
- Introduction to Epidemiology for Health Systems in the Americas (PAHO). 2023 - 40 hours
- Seminar "Human Rights and Public Health" (Ministry of Health, Argentina)

Languages and Software skills

Spanish (mother tongue), **English** (working proficiency) and **German** (limited working proficiency)

Data Analysis skill: QGIS, R, Python, PowerBI, SPSS IBM, MS Excel®, MS Word®, MS PowerPoint®, Adobe Acrobat DC®, Adobe InDesign®, PubMed Search

Publications

Falomir-Lockhart, E.; Dolcetti, F. J. C.; Herrera, M. L.; **Pennini, J**; Zappa Villar, M. F.; Salinas, G.; Portiansky, E.; Spittau, B.; Lacunza, E.; Hereñú, C. B.; Bellini, M. J. IGF-1 Gene Therapy Modifies Inflammatory Environment and Gene Expression in the Caudate-Putamen of Aged Female Rat Brain. Research Square (2021)

Presentations at national and international conferences

XIV Argentine Congress of Virology 2026. Poster presentation: "Analysis of territorial inequities in vaccination access in the Province of Buenos Aires (2015-2025): impact of the pandemic and of CIPRES implementation."

Provincial Health Congress (CoSaPro) 2026. Poster title: "GIRLS, NOT MOTHERS: Analysis of forced pregnancies in girls aged 10 to 14 in the Province of Buenos Aires between 2019 and 2024 from multiple information systems." Pennini, J., Mollo, F., Branca, A. P., Rodriguez, M. C., & Lamela, G. M.

International Public Health Congress (AASAP) 2025. Poster title: "Assessment of Housing Inclusion Devices as an Innovative Health Technology in the Province of Neuquén." Pennini, J. & Hasdeu, S. Awarded Special Mention.

Provincial Health Congress (CoSaPro) 2025. Poster title: "Descriptive analysis of forced pregnancies in girls in the Province of Buenos Aires during 2021-2024: a collective health perspective on an urgent problem." Pennini, J., Mollo, F., Sebastian, A. P., Rodriguez, M. C., & Lamela, G. M. Award-winning paper.

Provincial Health Congress (CoSaPro) 2024. Poster title: "Descriptive analysis of hantavirus events in the Province of Buenos Aires." Reñones, M., Pennini, J. & Diaz, M. A. Award-winning paper.

XXXV Annual Congress of the Argentine Society for Neuroscience Research 2020. Poster presentation:

"Effect of an intra hypothalamic gene therapy with IGF 1 on behavioral parameters."

Epidemiology Residency Network, 3rd National Meeting. October 2025.

Epidemiology Residency Network, 2nd National Meeting. October 2024.
